Your Choice For Canadian Diamonds...

The Hallmarks of Quality
 Canadian Diamond

Discovered in 1992, the Ekati Mine in Yellowknife is a world class producer of gem quality diamonds. Ecologically sound mining practices along with employment opportunity for all northerners has helped to elevate Canadian Diamonds to the forefront of international diamond markets. Produced under a "Code of Conduct" all Canadian Diamonds must be tracked from the mine to the consumer, must be accompanied by a certificate of authenticity and must be laser etched on the diamonds girdle with a unique identification number.

Environmentally friendly production, exceptional quality, your choice, "Canadian Diamonds".
